

Ricomponi i numeri come nell'esempio:

$$3000 + 400 + 50 + 6 = 3 \text{ k} + 4 \text{ h} + 5 \text{ da} + 6 = 3456$$

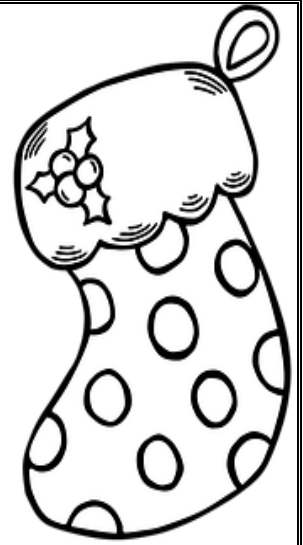

$$4000 + 600 + 50 + 3 = \text{-----}$$

$$8000 + 300 + 40 + 9 = \text{-----}$$

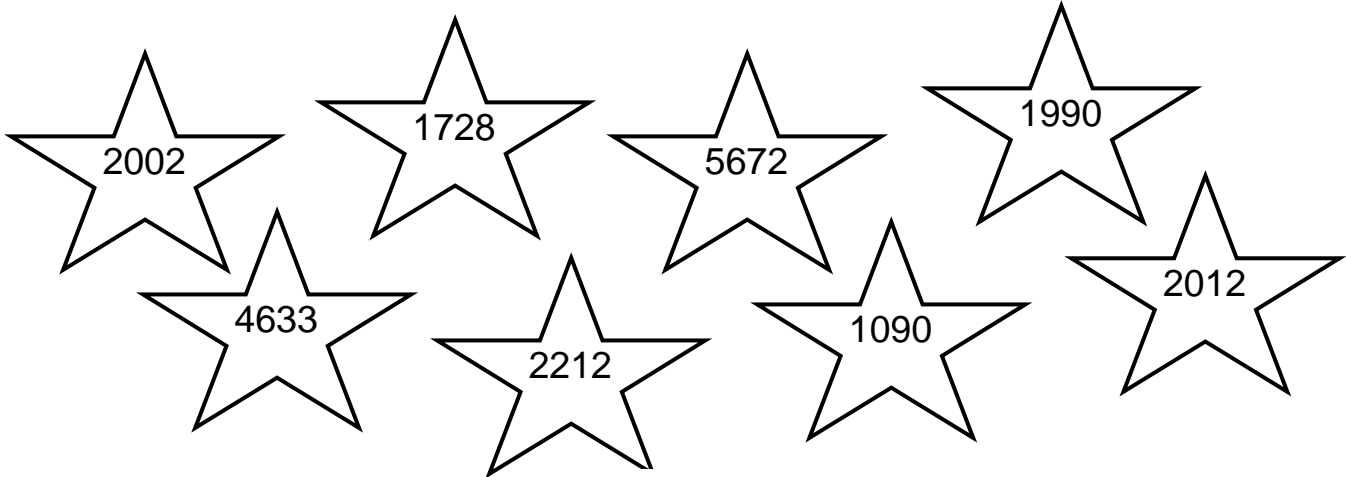

$$9000 + 400 + 80 + 4 = \text{-----}$$

$$2000 + 800 + 70 + 5 = \text{-----}$$

$$7000 + 100 + 10 + 1 = \text{-----}$$

Riordina i numeri in ordine crescente e decrescente:

Esegui i calcoli in colonna.

$$2457 + 356 =$$

$$1362 + 1624 =$$

$$5321 + 459 =$$

$$9875 - 3423 =$$

$$7359 - 5237 =$$

$$4985 - 3458 =$$

$$2435 \times 3 =$$

$$1458 \times 2 =$$

$$275 \times 4 =$$
